PARCEL A

- CDPH is pulling together their report for their dust wipe sampling field work. As of March 25, they had tested 75 homes and had not seen anything.

FIVE YEAR REVIEW/ PARCEL G

- Last week, we responded to the Navy's March 13th letter on their plans to move forward with using RESRED, instead of the PRG Calculator tool.
 - We were disappointed to learn the Navy had decided to retreat from using the PRG Calculator tool after nearly two years of discussions which they had publicly shared draft conclusions of draft PRG Calculator. We shared a plan to use their risk assessment tool of choice, RESRAD, which would include further consultation with our HQ office to ensure the use complies with Superfund regulations
 - The Navy also informed us they plan to implement the Parcel G Work Plan using the current remedial goals in the Record of Decisions (ROD), even though it's unclear these remedial goals continue to be protective of human health. We hope to speak with the Navy about this approach at our April 15th meeting with them.
- This week, we plan to send the Navy our recommended path forward letter on the Five-Year Review report and the Parcel G Work Plan. This path forward addresses their concerns to use RESRAD, as well as a phased approach to get in the field with work where we have an agreement. This path forward will also suggest dividing the conversation on the future use of onsite buildings for a residential scenario. As this conversation on buildings move forward, we believe the City and the State may have a role to play in those discussions.

COMMUNICATIONS/MEETINGS

- Both your offices will be courtesy copied on our letter to the Navy. Once we issue the letter, we will share it with Congressional leaders, Supervisor Walton, and Dr. Hunnicutt.
- We understand the Navy will present at the next HPS CAC meeting. We have concerns about the Navy misrepresenting EPA's policy at the January 2019 meeting. We hope to resolve this before next presentation.
- Does the City have any communications/meetings updates?

MAYOR/SUPERVISOR

- Are there any updates on the independent UC Berkley/UCSF panel to review CDPH's work?

NEXT MEETING

- Skip next week (April 15, 2019)? April 22, 2019 – Angeles/Lily will be out of town. Should we continue or cancel?
